

NCCN 2024 Annual Report

Advancing Cancer Care and Prevention for All

Who We Are

An alliance of leading cancer centers devoted to patient care, research, and education

Why We Exist (Our Mission)

To define and advance quality, effective, equitable, and accessible cancer care and prevention so all people can live better lives

Our Vision

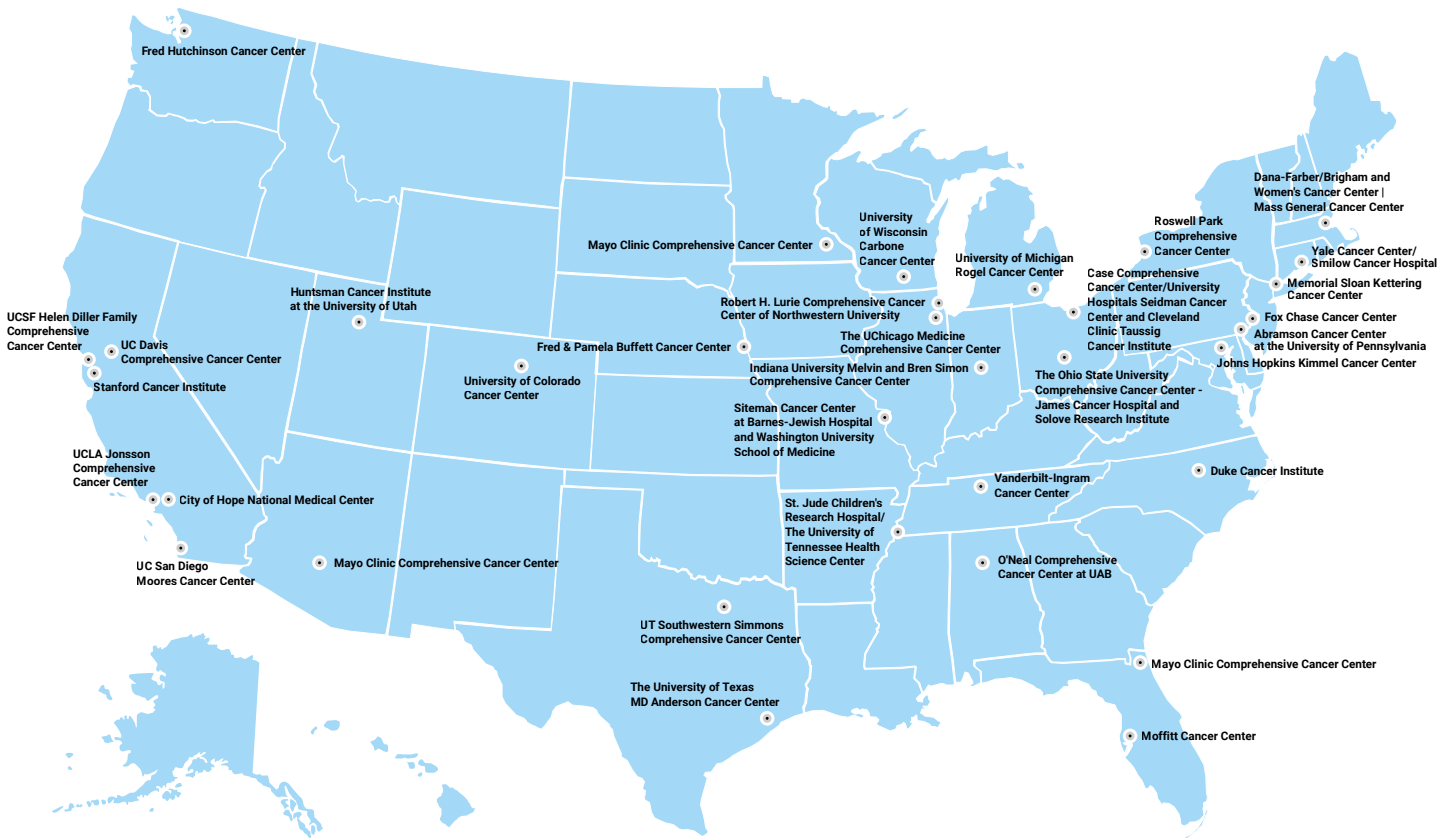

Access to high-quality, high-value, patient-centered cancer care for all people globally

Message from the Chair of the Board and Chief Executive Officer

The National Comprehensive Cancer Network® (NCCN®) continues to grow and evolve to support everyone navigating the rapidly changing cancer care environment. This is an exciting time for NCCN, as we reflect on our first years in our new roles as CEO and Chairman of the Board of Directors. During this transitional year, NCCN updated the strategic plan, including aligning the mission and vision to emphasize the organization's focus on defining and advancing quality, effective, equitable, and accessible cancer care and prevention for everyone, regardless of where they live or whether they are at risk for or diagnosed with cancer.

This report showcases NCCN's continued success in 2024, new initiatives and milestones, and the people and collaborations that make everything we do possible.

In 2024, the NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines®) were downloaded over 16 million times in over 190 countries worldwide. Furthermore, the NCCN Guidelines® were updated 241 times, marking a record high for the guidelines library and reflecting the rapid evolution of cancer evidence and care. We expanded guidelines for cancer detection, prevention, and risk reduction by incorporating new disease types into our guidelines on genetic risk assessment. We also introduced new clinical practice guidelines, establishing guidelines specifically for vaginal cancers and publishing our first guidelines for pediatric neuroblastoma. We continued to enhance the utility, accessibility, and interoperability of our clinical information resources through enhancements and updates to the NCCN Library of Compendia and NCCN Chemotherapy Order Templates (NCCN Templates®).

We thank our more than 1,950 multidisciplinary experts across our NCCN Member Institutions who served on NCCN Guidelines Panels for their dedication to these exciting innovations. These experts collectively contributed more than 49,000 hours to ensure these resources are current and available to our colleagues across the oncology community.

NCCN remains committed to the principles of diversity, equity, and inclusion. During our Annual Conference, Policy Summits, and other programs throughout the year, NCCN brought together multiple stakeholders to focus on strategies to reduce health disparities and advance DEI in the cancer workforce. Our DEI Directors Forum provided a space for ongoing sharing of information and best practices around these principles at our Member Institutions while we continue to pilot our Health Equity Report Card in both academic and community oncology settings. Through the NCCN Foundation® Young Investigator Awards program and other Oncology Research Program grants, we funded five Young Investigators and other researchers to support diverse investigations in clinical and basic science, quality improvement, and health outcomes.

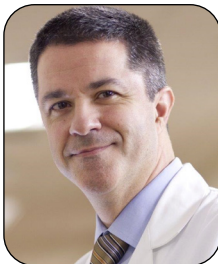

Message from the Chair of the Board and CEO

NCCN continues to work with our Member Institutions, state organizations, nonprofit groups, and policymakers to address other important issues in cancer care, including ongoing cancer-related drug shortages and advocating for access to guideline-concordant comprehensive biomarker testing for all appropriate patients. We strengthened our commitment to advancing global cancer care by participating in multiple meetings and furthering longstanding collaborations in several countries, working with our in-country and regional colleagues to expand regional adaptations and translated resources to facilitate dissemination of the evidence-based recommendations within the NCCN Guidelines.

With support from the NCCN Foundation, NCCN's library of patient resources now includes 73 NCCN Guidelines for Patients®, with two new patient guidelines published this year, including a resource to support people with cancer who are trying to quit smoking. We continue our commitment to translate every patient guideline into Spanish and further expand patient resources worldwide. Our award-winning patient resources continue to be recognized for excellence in conveying crucial consumer health information and have been downloaded 1.7 times by more than 1.4 million people.

All this and more were made possible through our NCCN Member Institution experts, Board of Directors, committees, working groups, forums, panels, and staff at Headquarters. We also extend our gratitude to our supporters and those who use and integrate our resources into their practices and resources. As we move into 2025 – NCCN's 30th year – we will continue to work together on all our important initiatives and explore new ways to define and advance quality, effective, equitable, and accessible cancer care and prevention so all people can live better lives.

Sincerely,

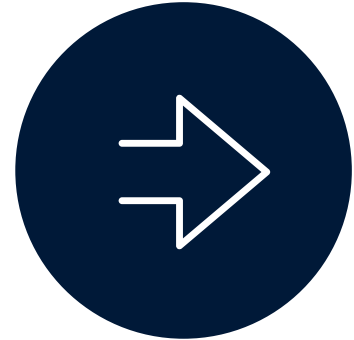

Matt Kalaycio, MD, FACP
Chair, NCCN Board of Directors
Vice-Chair
Cleveland Clinic Cancer Institute

Crystal S. Denlinger, MD

NCCN continuously publishes and updates the NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines[®]) to define and advance quality, effective, equitable, and accessible cancer care and prevention for everyone. In 2024, NCCN completed 241 guideline updates—higher than any previous year—while continuing to enhance and expand guidelines content and the associated suite of clinical resources.

The NCCN Guidelines[®] are a comprehensive set of guidelines detailing the sequential management decisions and interventions that currently apply to more than 97 percent of cancers affecting patients in the United States and globally.

NCCN Member Institution experts, through their membership on NCCN Guidelines Panels, develop the NCCN Guidelines and continuously revise and update them to reflect the latest advances in preventive, screening, diagnostic, treatment, survivorship, and supportive services. NCCN Guidelines Panel Members include multidisciplinary, disease-specific sub-specialists who are both clinicians and researchers, as well as patient advocates. Each guideline undergoes annual institutional review where it is circulated for comment among the faculty at each NCCN Member Institution.

External parties, including patients, patient advocates, clinicians outside the Member Institutions, industry, and/or payers are invited to submit requests for specific issues or topics to be discussed by the NCCN Guidelines Panels through our submissions process.

NCCN Guidelines

About the Guidelines

NCCN Guidelines contain cancer care recommendations that are continuously updated and revised to reflect new data and clinical information.

- **NCCN Categories of Evidence and Consensus** are based on the level of clinical evidence available and the degree of consensus within NCCN Guidelines Panels.
- **NCCN Categories of Preference** clarify panel and institutional preferences for interventions, providing guidance to users of the NCCN Guidelines on which recommendation(s) is considered optimal, while continuing to provide a wide range of recommendations to meet varying clinical circumstances and patient preferences.
- **NCCN Guidelines with NCCN Evidence Blocks™** are a visual representation of five key measures that provide important transparent information about specific NCCN Guidelines recommendations to inform decisions about systemic therapies based upon evidence, toxicity, and cost. It is a starting point for shared decision-making considering the patient's own value system.

Types of Guidelines

- NCCN Guidelines for Treatment by Cancer Type
- NCCN Guidelines for Detection, Prevention, & Risk Reduction
- NCCN Guidelines for Supportive Care
- NCCN Guidelines for Specific Populations
- NCCN Guidelines with NCCN Evidence Blocks™

Access to the Guidelines

- Free download online for non-commercial use from NCCN.org
- NCCN app
- Health Information Technology (HIT) companies
- Pocket Guidelines
- Email alerts (with subscription to NCCN Flash Updates™)
- Print copies

NCCN Guidelines® are the most thorough and frequently updated clinical practice guidelines available in any area of medicine.

There were more than 16 million downloads of NCCN Guidelines in 2024.

NCCN Guidelines Downloads By Year (millions)

Numbers rounded to the nearest decimal. Totals include downloads from international sites and apps.

Clinical Resources Based on NCCN Guidelines

NCCN Drugs & Biologics Compendium (NCCN Compendium®)

Information to support decision-making about the appropriate use of drugs and biologics in patients

- Contains 8,442 records across 73 NCCN Guidelines
- Updated in conjunction with the NCCN Guidelines on a continual basis
- Recognized by public and private insurers as an authoritative reference for oncology coverage policy

Subscription-based searchable database

NCCN Biomarkers Compendium®

Information to support decision-making around the use of biomarkers in cancer care

- Provides essential details for tests recommended by the NCCN Guidelines, including those that measure changes in genes or gene products for predictive, diagnosis, monitoring, surveillance, or prognostic information
- Contains more than 1,600 records

Subscription-based searchable database

NCCN Imaging Appropriate Use Criteria (NCCN Imaging AUC™)

Details of imaging recommendations included in the NCCN Guidelines

- Available across 73 NCCN Guidelines, including screening and supportive care, and covering approximately 1,250 imaging recommendations
- Recognized by public and private insurers as an authoritative imaging reference for oncology coverage policy

Free searchable database

NCCN Radiation Therapy Compendium™

Information to support decision-making around the use of radiation therapy in patients with cancer

- Available for 58 NCCN Guidelines containing radiation therapy recommendations
- Includes a full complement of 1,115 radiation therapy recommendations found in the NCCN Guidelines
- Recognized by public and private insurers as an authoritative radiation therapy reference for oncology coverage policy

Subscription-based searchable database

NCCN Chemotherapy Order Templates (NCCN Templates®)

Reference templates to improve the safe use of drugs and biologics in cancer care

- Includes chemotherapy, immunotherapy, and supportive care agents, monitoring parameters, and safety instructions
- Provides special instructions for self-administered chemotherapeutic agents
- Contains 2,946 active templates covering more than 115 cancer types including 6 for pediatrics

Subscription-based searchable database

The most frequently downloaded NCCN Guidelines in 2024

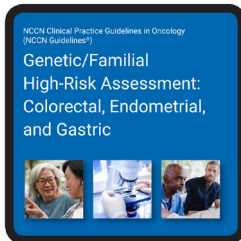

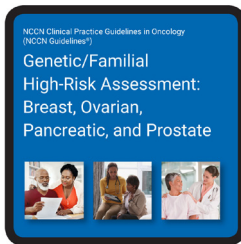

NCCN Guidelines for Breast Cancer	1,318,623 Downloads
NCCN Guidelines for Non-Small Cell Lung Cancer	932,195 Downloads
NCCN Guidelines for Prostate Cancer	775,453 Downloads
NCCN Guidelines for Colon Cancer	655,223 Downloads

The NCCN Guidelines Panel for Colon, Rectal, and Anal Cancers met in August 2024. This was one of 62 Guidelines Panel meetings in 2024.

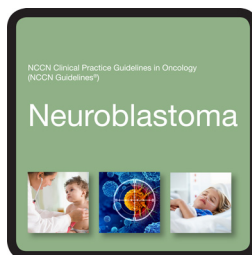

Updates to the NCCN Guidelines Library in 2024

Expansion of Cancer Genetic Risk Assessment Guidelines to Meet Growing Understanding of Hereditary Risk

In 2024, NCCN overhauled two major resources to help cancer care providers and other stakeholders stay current on cutting-edge research in genetic/familial high-risk assessment. NCCN updated their library with the publication of NCCN Guidelines for Genetic/Familial High-Risk Assessment: Breast, Ovarian, Pancreatic, and Prostate and NCCN Guidelines for Genetic/Familial High-Risk Assessment: Colorectal, Endometrial, and Gastric.

NCCN Publishes New Pediatric Guidelines

NCCN continued to advance cancer care by publishing its first set of treatment recommendations pertaining to neuroblastoma. This guideline addresses the importance and impact of risk stratification for treating one of the more common types of pediatric solid tumors and includes vanguard treatment recommendations involving multimodality treatment for high-risk disease.

NCCN Continues to Enhance its Suite of Clinical Decision-Making Resources with Information from the NCCN Guidelines

Across all resources, dropdown menus are now searchable and filterable using a new free-text field that narrows down the menu options as you type.

Library of Compendia

Learn more at [NCCN.org/compendia](https://www.nccn.org/compendia).

In 2024, the NCCN Drugs & Biologics Compendium (NCCN Compendium®) celebrated its 20th year. In addition to improved search functionality, a new dropdown menu was integrated, providing direct access to information from the NCCN Chemotherapy Order Templates (NCCN Templates®). Users can seamlessly search within the NCCN Compendium® for the NCCN Templates® ID and regimen name (plus course title if applicable), further improving access to information on safe handling and appropriate use of cancer drugs and biologics.

Recent enhancements to the NCCN Radiation Therapy Compendium™ include a link to normal tissue dose constraints for NCCN Guidelines that include this information.

NCCN Chemotherapy Order Templates

Learn more at [NCCN.org/templates](https://www.nccn.org/templates).

A new drop-down menu now allows users to search by regimen name. Users can search by regimen name, cancer type, and agent (individual drug name). This latest enhancement is part of NCCN's ongoing work to expand the Templates database size, search functionality, interoperability, and number of disease types included.

Downloads of NCCN Guidelines by Country in 2024

Downloads of NCCN Guidelines by Country

In 2024, NCCN published 76 new and updated translations of NCCN Guidelines and associated clinical resources. There are now 320 total translations available, and 34 NCCN Guidelines have been translated into one or more languages.

Poland

NCCN participated in meetings hosted by Maria Sklodowska-Curie National Research Institute of Oncology, the Polish Oncological Society, and Alliance for Innovation to advance cancer care in Poland.

NCCN, Maria Sklodowska-Curie National Research Institute of Oncology, the Polish Oncological Society, and Alliance for Innovation strengthened ongoing collaboration on the adaptation of NCCN Guidelines. There are currently six Poland Editions of the NCCN Guidelines, and this effort is expanding to include the adaptations of NCCN Guidelines for hematologic malignancies with the initiation of a pilot project focused on the adaptation of NCCN Guidelines for Hodgkin lymphoma.

Vietnam

NCCN CEO Crystal S. Denlinger, MD, pictured below, presented on the development and implementation of NCCN resources worldwide and in Vietnam as part of an event hosted by Vietnam National Cancer Hospital (K Hospital)—Best of ASCO 2024: Multimodality Treatment of Cancer and Hospital Management in the Digital Era. During the conference, Dr. Denlinger also highlighted the ongoing collaboration with the Vietnam National Cancer Hospital and the Vietnam Cancer Association to develop NCCN Harmonized Guidelines™ for Vietnam, a framework for improving and standardizing cancer care across the country. NCCN Harmonized Guidelines™ for Vietnam: Non-Small Cell Lung Cancer are currently available in English and Vietnamese.

Latin America

NCCN announced a renewed collaboration with the Latin American Cooperative Oncology Group (LACOG) to improve cancer outcomes in South America. The international oncology organizations worked together to publish the new NCCN Guidelines for Prostate Cancer: Brazil Edition.

Sub-Saharan Africa (SSA)

In 2024, NCCN along with other international and local oncology experts, gathered in Nairobi, Kenya and Accra, Ghana, pictured below, for a series of meetings to update cancer treatment recommendations in the NCCN Harmonized Guidelines™ for Sub-Saharan Africa. A total of 17 NCCN Harmonized Guidelines™ for Sub-Saharan Africa were updated in 2024. The total number available is now 57. This is part of ongoing work with Allied Against Cancer—a collaboration between the NCCN, African Cancer Coalition (ACC), American Cancer Society (ACS), and Clinton Health Access Initiative (CHAI).

China

NCCN took part in the fourth international congress of the Asian Oncology Society and the Chinese Congress on Holistic Integrative Oncology (2024 CCHIO) sponsored by the China Anti-Cancer Association (CACA), Chinese Institute of Development Strategy on Holistic Integrative Medicine, and Asian Oncology Society (AOS). The three-day event highlighted international collaborations to improve cancer treatment and outcomes across China and beyond.

NCCN Guidelines were downloaded more than 220,000 times in China in 2024 – one of the highest totals outside of the U.S. To expand access to high-quality, high-value, patient-centered care worldwide, NCCN strengthened its collaboration with the Chinese medical platform Medlive, enhancing access to NCCN Guidelines in China.

Global Policy Webinar Series

This webinar series provides an opportunity for a varied group of global stakeholders, including patients, patient advocates, oncology providers, policymakers, and caregivers, to highlight and discuss global challenges to equitable and high-quality cancer care, across the continuum of care, from diverse geographic perspectives. In 2024, the series included webinars focusing on the growing role of patient advocates in cancer research and clinical trial design and global cancer care in older adults.

Worldwide Collaborations

International Cancer Control (UICC): NCCN attended the UICC bi-annual World Cancer Congress, which engaged researchers, health care professionals, private sector representatives, and advocates to focus on key themes, such as cancer prevention, care, and global policy. NCCN also continues to collaborate to recognize World Cancer Day, a global awareness day organized by UICC every February 4.

International Cancer Control Partnership (ICCP): A coalition of international organizations engaged in cancer control planning efforts. Collaboration members create synergies to maximize collective resources and efforts to support the development, implementation, and evaluation of national cancer control plans. NCCN is on the ICCP Steering Committee and chairs the Communication, Advocacy and Knowledge Dissemination Workgroup.

Access to Oncology Medicines Coalition (ATOM Coalition): A global initiative, led by the Union for International Cancer Control (UICC), in collaboration with over 40 groups across the private and civil society sectors including NCCN. It aims to address the barriers to availability, affordability, and appropriate use of oncology medicines in low- and lower-middle income countries (LLMICs).

Global Health Council: A membership organization with a focus on advancing global health priorities by uniting advocates, implementers, policy makers, and other stakeholders. NCCN co-chairs the Noncommunicable Diseases (NCD) Working Group and is an active participant on the Multilateral Working Group.

Visitors posed at NCCN’s booth during the 2024 World Cancer Congress.

Global NCCN Resources

NCCN Framework for Resource Stratification of NCCN Guidelines (NCCN Framework™)

Developed to define appropriate treatment pathways based on available resources and deliver a tool for health care providers to identify treatment options that will provide the best possible outcomes in resource-constrained settings

- Outlines a rational approach for building cancer management systems based on the availability of resources in low-and middle-income countries where certain diagnostic tests and/or treatment approaches may be unavailable
 - 21 NCCN Framework™ are available
 - Covers ~83% of global incidence of cancers
-

NCCN Harmonized Guidelines™

Modified NCCN Guidelines targeted to regional resources in Sub-Saharan Africa and Vietnam

- Includes pragmatic approaches that provide effective treatment options for resource-constrained settings
 - Developed by the host country or region's oncology thought leaders in conjunction with NCCN Guidelines Panel Members
 - Created as part of a collaborative global effort to combat skyrocketing cancer rates and unique circumstances of cancer care
 - 57 NCCN Harmonized Guidelines™ for Sub-Saharan Africa are available; more updates are in progress
-

International Adaptations

Modified NCCN Guidelines to aid clinicians in determining appropriate and effective avenues of care in a specified country or region of the world

- Developed by the host country or region's oncology thought leaders in conjunction with NCCN Guidelines Panel Members
 - Account for metabolic differences in populations, accessibility of technology, regulatory status of health care, and cultural context
 - 23 International Adaptations of the NCCN Guidelines are available
-

International Translations

NCCN Guidelines translated from English

- 34 NCCN Guidelines have been translated into one or more languages
 - NCCN Content has been translated into 71 different languages
-

Global Policy Webinar Series

NCCN hosted two Global Policy Webinars in 2024 to highlight and discuss global challenges to equitable and high-quality cancer care:

- Global Cancer Care in Older Adults: Improving Access to High-Quality Cancer Care for an Aging World
 - The Growing Role/Current State of Patient Advocates in Cancer Research and Clinical Trial Design and Development: Real World Examples
 - More than 570 total participants
-

Available free online for non-commercial use at [NCCN.org](https://www.nccn.org) and via the NCCN Mobile App.

Research to Foster **Innovative, Effective, and Equitable Cancer Care**

192

Member Institution faculty and staff participated in ORP standing committees and ad hoc RFP development teams (RFPDT)

174

Posters presented virtually and published in *JNCCN* as part of the NCCN 2024 Annual Conference. Oral poster presentations featured the top 5 abstracts and 5 Young Investigator Awardees.

13

Active Young Investigator Awardees, including 5 newly funded investigators in 2024

\$6.9 million

Approximate amount awarded to NCCN Member Institutions through NCCN Oncology Research Program research initiatives

In 2024, the NCCN Oncology Research Program (ORP) celebrated 25 years of fostering innovation and knowledge discovery that improve the lives of people with cancer.

The ORP supports the investigation of FDA-approved and investigational agents and devices, with a focus on quality, effective, equitable, and accessible cancer therapies. Additionally, ORP-funded researchers work to uncover new insights into cancer care delivery, outcomes, and quality, while addressing barriers that impact optimal cancer management. The ORP aims to increase opportunities for NCCN Member Institution faculty to participate in oncologic investigation and supports those who are, or will become, leaders in cancer research. The ORP ensures that the knowledge gained through the program is shared with the broader medical community through presentations and publications in peer-reviewed journals. Its collaborations between academia and industry are constructive, appropriate, and transparent, leading to valuable insights that enhance cancer management.

25 Years of Advancing Cancer Science

Over the past quarter-century, the NCCN ORP has managed a diverse portfolio of more than 180 research studies and quality improvement projects to improve quality and outcomes for people with cancer. In 25 years, NCCN ORP has funded 239 investigators and secured \$68.7 million in funding. The NCCN ORP provides project oversight for the NCCN Foundation Young Investigator Awards. Over the past nine years, the ORP has also coordinated the scientific poster session at NCCN's Annual Conference. These grants and poster presentations have contributed significant new knowledge to advance cancer care and helped to cultivate emerging leadership in the field of oncology.

New Senior Director of NCCN Oncology Research Program

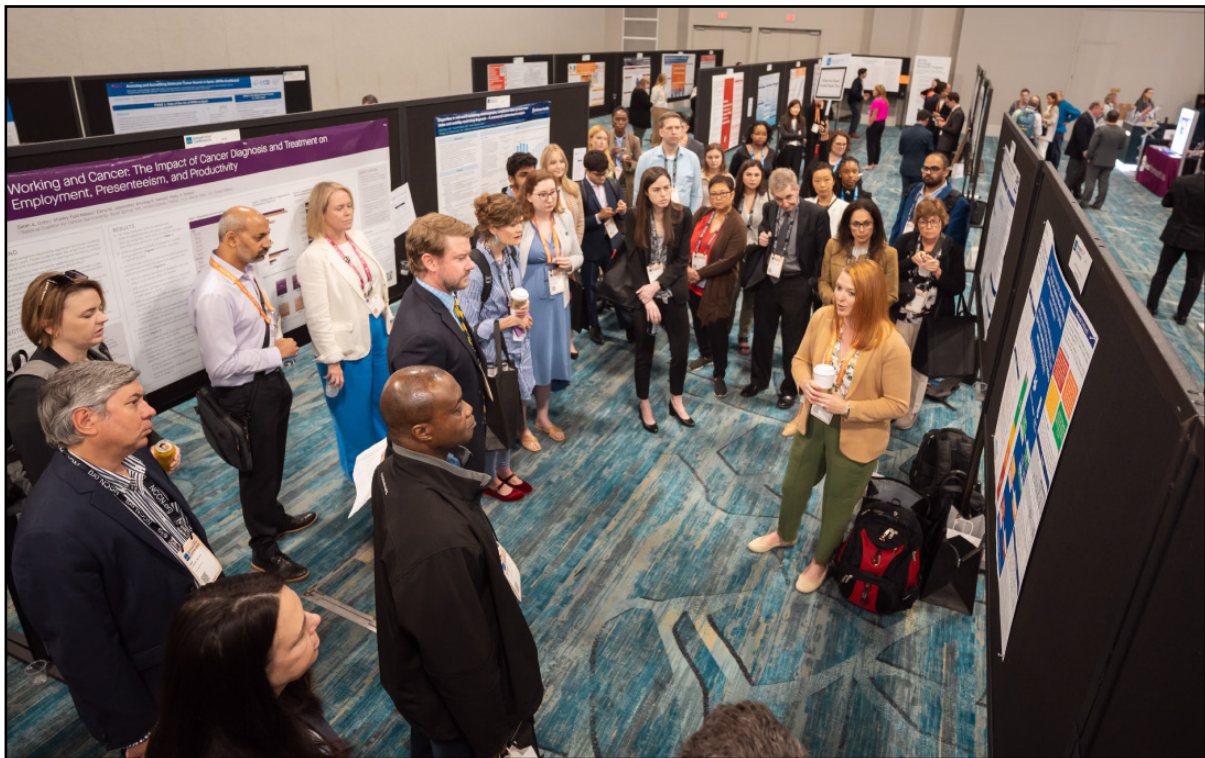

Matthew K. Robinson, PhD, joined NCCN in 2024 as the new Senior Director of the Oncology Research Program. Dr. Robinson has over 20 years of research and management experience implementing innovative scientific approaches to discover and develop antibody-based therapeutics for oncology and infectious diseases. Most recently, he was Chief Technology Officer and led R&D for a publicly traded biotech company. Prior to that he was on the faculty of Fox Chase Cancer Center. He served on multiple scientific advisory boards, as well as, national and international grant review panels.

General Poster Session

In addition to supporting investigator-initiated research and quality improvement grants, the ORP facilitates the NCCN General Poster Session presented in conjunction with NCCN's Annual Conference. NCCN considers a wide range of research in areas, including clinical oncology, pre-clinical oncology, epidemiology, quality improvement, outcomes, case studies, trials in progress, and more.

The 2024 General Poster Session, pictured below, featured 174 posters. Abstracts were also available on the NCCN Annual Conference virtual platform and published in *JNCCN—Journal of the National Comprehensive Cancer Network*. Poster tours were offered to highlight research of interest, and Top Abstracts and YIAs were featured during oral poster presentations.

In 2024, ORP-funded investigators:

- Published manuscripts in the following journals:
 - *British Journal of Cancer*
 - *Gynecologic Oncology*
 - *JCO Oncology Practice*
 - *Journal of Thoracic Disease*
 - *JNCI Cancer Spectrum*

- Presented abstracts at meetings including:
 - World Conference on Lung Cancer
 - American Association for Cancer Research
 - American Society of Clinical Oncology
 - San Antonio Breast Cancer Symposium

Cancer Network***

77

Original research articles published in *JNCCN* in 2024

22,500

JNCCN circulation

14.8

Impact factor measuring how frequently *JNCCN* is cited in other journals

JNCCN is committed to conveying research findings and new knowledge at local, national, and international levels, while advancing corroborative medicine.

JNCCN features updates on the NCCN Guidelines, including the NCCN Guidelines Insights, which provide behind-the-scenes views into the NCCN Guidelines Panel discussions that lead to important updates. The journal offers the latest insights on advancements in clinical and translational medicine, along with innovative research in oncology health services, covering topics such as quality care, value, bioethics, comparative and cost-effectiveness, public policy, and interventional studies on supportive care and survivorship.

In 2024, the impact factor for JNCCN continued to grow steadily, hitting 14.8 for the latest year. This marks an increase of more than 10 percent. The scientometric index is calculated by Clarivate, based on the yearly average number of citations of articles published during the previous two years. With the current impact factor, JNCCN now ranks in the 1st quartile of medical journals at 95.2 percent.

New Editor-in-Chief

Dr. Daniel M. Geynisman was named the new Editor-in-Chief for JNCCN in 2024. Dr. Geynisman has a long history of working with NCCN in a variety of roles and serving on the NCCN Guidelines Panels for both Testicular Cancer and Wilms Tumor. He served as medical oncology section editor for *Urologic Oncology: Seminars and Original Investigations* from 2018 to 2024 and authored more than 130 peer-reviewed publications. He is an Associate Professor in the Department of Hematology/ Medical Oncology and Chief of the Division of Genitourinary Medical Oncology at Fox Chase Cancer Center.

JNCCN Resources

JNCCN—Journal of the National Comprehensive Cancer Network

Peer-reviewed, PubMed-indexed oncology journal

- 13 issues per year, including a special edition on the NCCN Annual Conference
- Expanded online presence with online-only issues, online-only supplements to print issues, and exclusive material online ahead of print

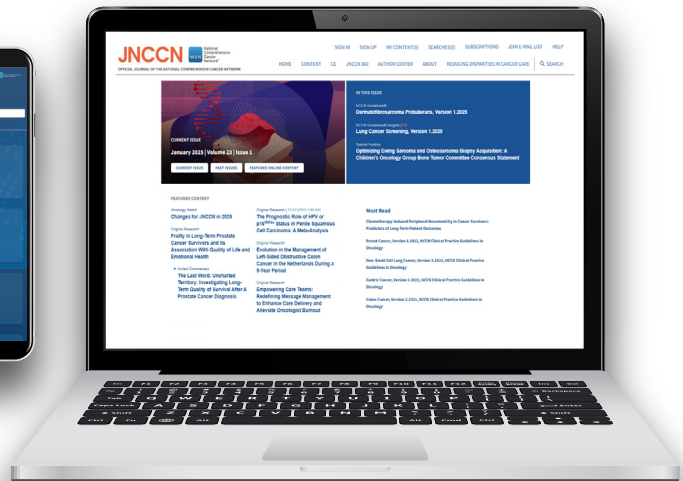

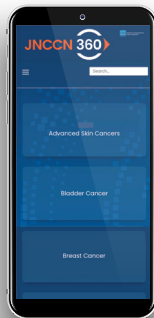

Available in print and online at JNCCN.org

JNCCN 360

An online resource that helps users quickly learn what's new and important in the oncology world

- Organized by specific tumor type or disease and features links to key articles, trials, patient resources, videos, and more
- Spotlights focus on specific therapies with clinical pearls from practitioners on how best to use them effectively and safely in practice

NCCN acknowledges the significance of providing all stakeholders in oncology care with access to NCCN Guidelines and NCCN Content in their preferred formats. Throughout 2024, NCCN and oncology stakeholders worked together to enhance the understanding of evidence-based cancer care.

NCCN collaborates with various organizations to distribute NCCN Content and engages key stakeholders to strengthen cooperative efforts in raising awareness of NCCN programs and resources. Additionally, NCCN works with public and private payers, employers, pharmacy benefits managers, and related entities to ensure the effective application of the NCCN Guidelines and associated clinical content for the development, implementation, and assessment of coverage and quality policies and programs.

In 2024, NCCN engaged professionals from healthcare, pharmaceutical, biotechnology, and information technology organizations to discuss pressing issues in oncology, including:

- The Rise in Cancer Among Young Adults
- Artificial Intelligence in Oncology

- Shared Strategies for Successful Cancer Screening

NCCN Business Development

The NCCN Academy for Excellence & Leadership in Oncology™ spring meeting was held in April 2024 in Orlando, FL.

The NCCN Academy for Excellence & Leadership in Oncology™ fall meeting was held in October 2024 in Scottsdale, AZ.

Programs to Engage Industry Stakeholders

NCCN Academy for Excellence & Leadership in Oncology™

Interactive program through which pharmaceutical and biotech professionals learn about pressing issues in oncology today and how to apply this knowledge

- The April meeting was held in Orlando, FL
 - The October meeting was held in Scottsdale, AZ
 - Approximately 150 attendees
-

NCCN Global Academy for Excellence & Leadership in Oncology™

Interactive program focused on pressing issues in the global oncology environment

- 2024 meeting was held virtually in November
 - Approximately 85 attendees
-

NCCN Corporate Council

Works to enhance collaborative efforts between NCCN and pharmaceutical, biotechnology, and diagnostic companies to better serve patients

- The March meeting was held in Orlando, FL
 - The October meeting was held in Scottsdale, AZ
 - 78 members
-

NCCN Global Corporate Council

Advances the development and expansion of NCCN Global programs by providing the opportunity for open dialogue, collaboration, and support of NCCN's mission and vision outside the United States

- 2024 meeting was held in September in Barcelona, Spain
 - 16 members
-

Using the NCCN Guidelines at Point of Care

NCCN Content in Health Information Technology (HIT)

Incorporated in health information technology (HIT), through permissions and licensing arrangements

- NCCN Content is licensed by 88 HIT companies. Learn more at [NCCN.org/HIT](https://www.nccn.org/HIT)
- Licensees of the NCCN Guidelines that provide decision support at point-of-care or NCCN Guidelines concordance reporting include Cencora's (fka AmerisourceBergen) IntelliDose TxM, Flatiron Assist, Integra Connect and McKesson/Ontada's Clear Value PlusSM "Value Pathways powered by NCCN™"

NCCN Content in Electronic Health Records (EHRs)

Organizations use NCCN Content in electronic health records through licensing arrangements

- 140 hospital systems have license agreements to access the NCCN/Epic or NCCN/Oracle (fka Cerner) build of the NCCN Chemotherapy Order Templates within their Electronic Health Record (EHR)
- Other EHR companies that licensed NCCN Templates in 2024 include CureMD, InformedGENOMICS, iKnowMed, MOSAIQ, MEDITECH, Navista, and OncoEMR

NCCN Flash Updates™

Timely outlines of the most recent updates to NCCN products and resources direct to subscribers' and licensees' inboxes

- NCCN sent 395 Flash Updates via email in 2024
 - More than 14,300 individuals receive NCCN Flash Updates™
-

Programs to Engage Employers and Payers

Employer & Payer Initiatives

NCCN works with commercial insurers, employers, and purchasers to ensure their members are receiving high-quality cancer care

- NCCN Guidelines and associated resources are used for coverage determination for at least 85 percent of covered lives in the United States, including by CMS for Medicare and commercial payers and purchasers
 - NCCN has a free NCCN Employer Toolkit for employers to utilize when designing their cancer coverage policies
-

NCCN Employer Forum

Employer stakeholders discuss the current state of oncology care and relevant healthcare issues

- The NCCN Employer Advisory Group includes employers and employer coalition groups that are responsible for covering millions of lives through their employer-sponsored plans
 - The NCCN Employer Forum was held in October in Scottsdale, AZ
-

Promoting **Effective Policies**

22

Articles, statements, comment letters, and endorsement letters written by the NCCN Policy team

53

Meetings with policymakers and administrators

6

Federal administrative engagements with NIH, NCI, Cancer Moonshot, HHS, and CMS

Throughout 2024, NCCN continued to collaborate closely with healthcare policy stakeholders to ensure its ongoing impact on policy in support of our mission and vision.

To advance equitable access to quality care as recommended by NCCN Guidelines, NCCN collaborates with stakeholders to improve and facilitate quality, equitable, and accessible cancer care and prevention and ensure the use of NCCN Guidelines in health policy and coverage determination and patient access to guideline-concordant care.

In March 2024, NCCN attended the United in Blue Rally in Washington, D.C. organized by Fight Colorectal Cancer to raise awareness for colon and rectal cancer. NCCN Board Vice-Chair Christopher Lieu, MD, of the University of Colorado Cancer Center, spoke during the event along with other advocacy leaders. Dr. Lieu is pictured second from left with members of the NCCN Policy & Advocacy team.

Health Equity Report Card (HERC)

Learn more at [NCCN.org/HERC](https://www.nccn.org/HERC)

The HERC was created by the Elevating Cancer Equity collaboration between NCCN, the American Cancer Society Cancer Action Network (ACS CAN), and the National Minority Quality Forum (NMQF) and launched as a pilot in five academic cancer centers. It features 19 practice evaluation and change recommendations designed to help providers and healthcare organizations identify and address disparity and bias in care delivery, address social determinants of health, and overcome systemic barriers to optimal care.

In October 2024, NCCN presented preliminary data from a study evaluating the usability of the HERC tool during the American Public Health Association (APHA) Annual Meeting and Expo. Additional evaluation is underway into the HERC's scoring, feedback mechanisms, and impact on cancer care, including a separate pilot project being conducted in the community cancer center setting.

NCCN Manager of Cancer Care Equity Named '40 Under 40'

Taneal D. Carter, MS, MPA, NCCN Manager of Cancer Care Equity Program, was named one of '40 Under 40' by the National Minority Quality Forum (NMQF). These leaders have persevered in strengthening their communities and reducing health disparities amid ongoing challenges within the healthcare system. Carter received her award at the NMQF Leadership Summit on Health Disparities and Health Braintrust during National Minority Health Month in April 2024.

Addressing Nationwide Chemotherapy Shortage

In June 2024, NCCN published new results for its latest best practices survey on cancer drug shortages in the United States. The NCCN Policy and Advocacy team has been involved with national efforts, working with federal regulators, agencies, and lawmakers to implement long-term solutions to drug shortages.

World Cancer Day

For World Cancer Day on February 4, 2024, NCCN, American Cancer Society Cancer Action Network (ACS CAN), and the National Minority Quality Forum (NMQF) announced three key areas of policy focus as part of the Alliance for Cancer Care Equity (ACCE) joint collaboration, including advancing diversity in clinical trials, improving cancer screening and early detection, and increasing access to patient navigation. The organizations also worked with Congresswoman Terri Sewell (D-AL) to observe the day with the introduction of a congressional resolution recognizing World Cancer Day and the work of the ACCE. The resolution language highlighted the importance of taking meaningful action to raise awareness of the disparities that exist in cancer care and supporting efforts to close the care gap.

President's Cancer Panel

In February 2024, the President's Cancer Panel released a report – *President's Cancer Panel's Initial Assessment of the National Cancer Plan* – that included recommendations in five priority areas. The report includes a table of activities related to the National Cancer Plan's goals. NCCN is noted for contributing to goals to prevent cancer, detect cancers early, eliminate inequities, deliver optimal care, and engage every person.

Also in 2024, the Panel released the report – *Enhancing Patient Navigation with Technology to Improve Equity in Cancer Care* – which identifies four priorities and related recommendations regarding the development and use of technology for cancer patient navigation. NCCN Chief Executive Officer, Crystal S. Denlinger, MD, and Vice President of Policy and Advocacy, Alyssa Schatz, were invited participants in meetings that informed the development of this report.

Visit to White House

NCCN has been a supporter of patient navigation reimbursement for several years with legislative and regulatory advocacy in support of building sustainable reimbursement for these critical services. In 2024, NCCN was an invited participant at the White House Office of Science and Technology Policy event *Driving Change: Reimbursable Navigation Services One Year Later*. NCCN Vice President of Policy and Advocacy, Alyssa Schatz, participated in this event that allowed attendees to celebrate one year of reimbursement for patient navigation services while also reflecting on the remaining advocacy and work to be done moving forward.

Advocating for Comprehensive Biomarker Testing

On July 1, 2024, the Commonwealth of Pennsylvania became the 15th state to sign into law a bill ensuring comprehensive biomarker testing coverage for patients in all state-regulated commercial plans and Medicaid. Since 2022, there have been 20 states that have passed some form of biomarker testing coverage legislation. NCCN's State Policy Program has joined coalitions throughout the country who share our goals and worked in concert with in-state Member Institutions to advance these policies.

NCCN Policy Programs

Sexual and Reproductive Health and Its Impact on the Cancer Care Experience

May 6, 2024

The Summit focused on how sexual and reproductive health can impact people with cancer before, during, and after treatment. Speakers covered a wide range of topics, within the context of gender and sex, intimacy, fertility and reproductive health, treatment side-effects, and the impact of a changing policy landscape in the wake of new laws and judicial decisions.

- Program participants: 143

NCCN Policy Summits

Advancing Diversity, Equity, and Inclusion in the Cancer Workforce

September 10, 2024

The Summit focused on how to establish and prioritize a culture of diversity, equity, inclusion, and belonging in the oncology workforce and how to maintain this commitment through a changing policy landscape. A series of best practice presentations showcased some of the existing programs that are engaged with this work around the country.

- Program participants: 169

Better Information for Better Outcomes: Policy and Practice Strategies for Patient Education

December 6, 2024

The Patient Advocacy Summit addressed issues associated with misinformation and disinformation from social media, information asymmetries, structural inequities, and information overload, and the role that healthcare workers like patient navigators can play in helping to connect patients and their caretakers with credible sources of information. The Summit also highlighted practice and policy solutions needed to improve information networks, health literacy, and patient navigation services.

- Program participants: 226

NCCN Patient Advocacy Summit

NCCN Policy Program

Tamika Felder, Chief Visionary, Cervivor, Inc., was a featured keynote speaker during the May 2024 Policy Summit.

W. Kimryn Rathmell, MD, PhD, MMHC, Director of the National Cancer Institute (NCI), was a featured keynote speaker during the December 2024 Patient Advocacy Summit.

During the September 2024 Policy Summit experts discussed how to establish and prioritize a culture of diversity, equity, inclusion, and belonging in the oncology workforce.

Educating **Cancer Care Teams**

172
CE activities

>76,000
Total participants

>81,500
CE credits earned

The NCCN Continuing Education (CE) Program continues to engage the interprofessional oncology care team through high-quality educational programming. In 2024, learning activities focused on practical ways to apply the latest advances and addressed issues impacting cancer care delivery.

The NCCN CE Program focuses on educating the interprofessional oncology care team on the application of evidence-based medicine and adherence to clinical practice guidelines, and providing the tools necessary to define and advance quality, effective, equitable, and accessible cancer care and prevention so all people can live better lives.

Emerging Issues in Cancer Care

Thousands of professionals from across the oncology field continue to participate in interactive NCCN CE activities to learn about updates to the NCCN Guidelines, emerging evidence, and new treatments.

NCCN CE programs also go beyond the guidelines to focus on issues impacting care delivery, including:

- Changing Economics in Cancer Care
- Artificial Intelligence in Oncology
- Cancer Risk Assessment and Screening
- Practices to Reduce the Impact of Cancer Drug Shortages
- Disparities in Cancer Care

NCCN Continuing Education

The NCCN 2024 Annual Conference was held in Orlando, FL. The program also streamed virtually and attracted participants from 37 countries.

Andrew D. Zelenetz, MD, PhD, served as chair for the NCCN 2024 Annual Congress: Hematologic Malignancies™. Sessions were presented in New York, NY and also streamed virtually.

Continuing Education Programs

NCCN Breast Cancer Congress

Live hybrid event featuring breast cancer experts discussing new and emerging therapies, key updates to the NCCN Guidelines, and clinical research updates

NCCN 2024 Breast Cancer Congress with Updates from the 2023 San Antonio Breast Cancer Symposium™

February 2, 2024

- Event attendees: 778
 - Recorded webcast viewers: 8,874
-

NCCN Annual Conference

Live hybrid event in which learners successfully participated both in-person and virtually in live sessions that discussed the latest cancer therapies and provided updates on selected NCCN Guidelines, the data upon which the NCCN Guidelines are based, and quality initiatives in oncology

NCCN 2024 Annual Conference

April 5 - 7, 2024

- Event attendees: 1,547
- Recorded webcast viewers: 11,613

NCCN 2024 Nursing Program: Advancing Oncology Nursing™

April 4, 2024

- Event attendees: 474
- Recorded webcast viewers: 4,187

NCCN 2024 Oncology Fellows Program: New Horizons in Quality Cancer Care

April 7, 2024

- Event attendees: 88
 - Recorded webcast viewers: 1,433
-

Annual Congress: Hematologic Malignancies

Live hybrid meeting where world-renowned experts in hematologic malignancies discuss the latest treatment advances, updates to the NCCN Guidelines, and challenging patient cases

NCCN 2024 Annual Congress: Hematologic Malignancies™

September 20 - 21, 2024

- Event attendees: 540
 - Recorded webcasts launched in December 2024
-

NCCN Webinar Series

NCCN Oncology Tumor Boards:

A Multidisciplinary Approach to Individualized Patient Care

Series of multidisciplinary case-based live webinars on the care of patients with various cancer types

- Live webinar attendees: 2,076
- Recorded webcast viewers: 2,006

NCCN Pharmacy Updates: Webinar Series

Webinar series designed for the oncology care team to review the clinical and patient considerations that influence how to effectively optimize outcomes for patients with various cancer types

- Live webinar attendees: 2,822
 - Recorded webcast viewers: 1,527
-

NCCN Guidelines® Insights

Articles published monthly in *JNCCN* that highlight why important decisions are made in the development of NCCN Guidelines, and how to apply this information in clinical practice

Behind the Guidelines:

Insights into the Standard of Care in Oncology 2024

- Participants: 4,750
-

Throughout 2024, NCCN educational content spanned over 40 areas of cancer care, offering participants options customized to their practice type and preferred learning style.

Additional Continuing Education Activities

Caring for Patients With Cancer in a Post-COVID World: Expert Guidance on the Latest Data and Therapeutic Advances to Mitigate Infection Risk

Provided in collaboration with Clinical Care Options, LLC

Satellite Symposium at the 2024 ASCO Annual Meeting

- Live symposium and simulcast attendees: 299
 - Recorded webcast viewers: 1,191
-

Applying NCCN Guidelines for the Treatment of CLL/SLL in Clinical Practice: The Right Agent for the Right Patient at the Right Time

Provided in collaboration with Clinical Care Options, LLC

Satellite Symposium at the 2024 ASCO Annual Meeting

- Live symposium and simulcast attendees: 432
 - Recorded webcast viewers: 1,160
-

Renal Cell Carcinoma: Evolving Perspectives on Optimal Treatment

Provided in collaboration with Clinical Care Options, LLC

Live webinar following the 2024 ASCO Annual Meeting

- Live program attendees: 384
 - Recorded webcast viewers: 511
-

Unraveling Cancer Pain Dynamics

Provided in collaboration with The France Foundation

REMS-compliant webinar series designed to enhance participants' approach to cancer pain management

- Live program attendees: 203
 - Online module launched in December 2024
-

An Interactive Case-based Review of CLL: Experts Explore the Latest Evidence and Guideline Updates

Provided in collaboration with Clinical Care Options, LLC

Satellite Symposium preceding the 66th ASH Annual Meeting and Exposition

- Live symposium and simulcast attendees: 736
 - Recorded webcast launched in December 2024
-

Vital Questions for Treatment of Bladder Cancer: Expert Insights on Recent and Near-Future Changes

Provided in collaboration with Clinical Care Options, LLC

Satellite Symposium preceding the SUO Annual Meeting

- Live symposium and simulcast attendees: 213
 - Recorded webcast launched in December 2024
-

NCCN Continuing Education

Immunotherapy in Hepatocellular Carcinoma: Improving the Treatment Paradigm Within Community Practice

Provided in collaboration with Clinical Care Options, LLC

Online program to improve the knowledge and competence of learners to individualize the therapeutic management of patients with HCC

- Recorded webcast viewers: 555
-

Advances in the Management of Metastatic Castration-Resistant Prostate Cancer: Expert Guidance and Resources for the Interdisciplinary Team

Provided in collaboration with Clinical Care Options, LLC

Live meeting series focused on evidence-based treatment and supportive care options for patients with newly diagnosed mCRPC, mCRPC with HRR gene alterations, and recurrent mCRPC

- Live program attendees: 636
 - Recorded webcast viewers: 488
-

Individualized Multidisciplinary CLL/SLL Care: Practical Application of Guidelines and Emerging Data

Provided in collaboration with Clinical Care Options, LLC

Live meeting series to support participants in applying evidence-based guideline recommendations to optimize clinical outcomes in patients with CLL/SLL

- Live program attendees: 456
 - Recorded webcast viewers: 140
-

61
Healthcare collaborations to share NCCN Guidelines for Patients

In 2024, the NCCN Foundation, the philanthropic arm of NCCN, continued to lead the way in empowering people living with cancer and advancing oncology innovation by supporting the publication of more NCCN Guidelines for Patients, securing funds to expand and update resources for patients, and funding a new group of promising young investigators through the NCCN Foundation Young Investigator Awards (YIA) Program.

Funding the NCCN Guidelines for Patients

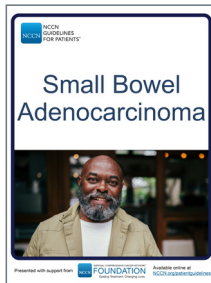

NCCN Guidelines for Patients are community-friendly versions of the NCCN Guidelines. They are based on the same treatment information doctors use and help people facing cancer, families, and caregivers talk with their clinicians about the best treatment options for them.

These step-by-step guides to the latest advances in cancer care feature:

- Questions to ask doctors
- Inclusive Illustrations
- Glossaries of terms and acronyms

New NCCN Guidelines for Patients Published in 2024

Expanding Resources for Rare Diseases

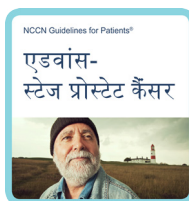

NCCN Guidelines for Patients: Small Bowel Adenocarcinoma focus on a rare cancer type. The small amount of patient information that exists for this cancer type tends to combine it with other cancers of the small intestine (such as sarcomas, neuroendocrine tumors, or lymphomas) despite very different treatment approaches and results.

Offering Support for People Trying to Quit Smoking

NCCN Guidelines for Patients: Quitting Smoking provide critical support and guidance for individuals with cancer who are seeking to quit smoking. It explains how to best use the tools that exist to help anyone quit for good. While focused on smoking cessation strategies in people with cancer, the information is also useful for smokers who do not have a cancer diagnosis.

Committing to Accessible Patient Resources

In 2024, downloads of NCCN Guidelines for Patients translations increased by more than 42 percent. NCCN also continued progress on its goal to publish a Spanish version of every book in the library of NCCN Guidelines for Patients. In addition to Spanish, NCCN Guidelines for Patients were available in Arabic, Chinese, French, Haitian Creole, Hindi, Hmong, Italian, Japanese, Korean, Polish, Portuguese, Russian, Somali, Tagalog, Ukrainian, and Vietnamese.

In 2024, NCCN Guidelines for Patients had more than 1.7 million downloads by more than 1.4 million individuals.

NCCN Guidelines for Patients: Invasive Breast Cancer	98,634 Downloads
NCCN Guidelines for Patients: Colorectal Cancer Screening	76,883 Downloads
NCCN Guidelines for Patients: Prostate Cancer: Early stage	71,076 Downloads
NCCN Guidelines for Patients: Colon Cancer	54,573 Downloads

NCCN Patient Resources Recognized for Excellence

In 2024, the NCCN patient resources continued to receive awards and recognition from external organizations, including a Gold Hermes Creative Award in the electronic media/digital publication category; Communicator Award of Distinction in the medical print content category; and an APEX Award of Excellence in the electronic publication category.

To learn more about 2024 awards, visit [NCCN.org/patients](https://www.nccn.org/patients).

Free Patient and Caregiver Resources

NCCN Guidelines for Patients®

Adapted NCCN Guidelines written in plain language to help people facing cancer, families, and caregivers talk to clinicians about the best treatment options

- Comprehensive library of 73 NCCN Guidelines for Patients

Free online at [NCCN.org/patientguidelines](https://www.nccn.org/patientguidelines) and via the NCCN Patient Guides for Cancer App

Global Language Translations

NCCN Guidelines for Patients translated from English

- NCCN Guidelines for Patients are translated into 19 languages
- Used by organizations around the world

Free online at [NCCN.org/patientguidelines](https://www.nccn.org/patientguidelines) and via the NCCN Patient Guides for Cancer App

Patient Webinars

Information from NCCN Guidelines for Patients presented in a live online program

- 4 patient webinar sessions were held in 2024 and generated 2,532 total views
- Presenters were from multiple disciplines, including providers and patient advocates
- Q&A section facilitated audience engagement

NCCN Foundation Young Investigator Awards (YIA) Program

Since the program's inception in 2011, the NCCN Foundation has awarded more than \$11.1 million to 75 early career investigators from NCCN Member Institutions.

The NCCN Foundation YIA Program works with the NCCN Oncology Research Program (ORP) to identify and nominate the most promising young investigators representing NCCN Member Institutions. Selected early-career investigators receive vital funding for cancer research to spur treatment innovation and career advancement. Awardee research is highlighted in many scientific healthcare publications and journals.

In 2024, YIA funders included AbbVie; Daiichi Sankyo; Edith C. Blum Foundation; Joanne Mohr-Hartshorne; Merck & Co., Inc.; and Pfizer Inc.

NCCN **Leadership, Committees, Groups, and Panels**

2024 NCCN Awardees

Every year, NCCN recognizes outstanding contributions from team members.

Partners in Cancer Care Award

Presented to people outside of NCCN Member Institutions who are instrumental in helping NCCN achieve its mission.

Darcie Green
Executive Director
Latinas Contra Cancer

Employee of the Year Award

Recognizes an individual on NCCN Staff who has made major contributions to the success of NCCN.

Donna Black
Senior Guidelines Administrative Manager
National Comprehensive Cancer Network

Outstanding Contribution Award

Recognizes passion for improving the care of people with cancer and exceeding expectations in service of NCCN's mission.

The NCCN COVID-19 Vaccination Advisory Committee
36 members from NCCN Member Institutions with expertise in hematology and oncology, infectious disease, and medical ethics

NCCN Excellence in Engagement Award

Presented to individuals for exemplary service of NCCN's mission.

Shaji K. Kumar, MD
Consultant, Division of Hematology
Professor of Medicine
Medical Director
